#### PURPOSE AND SUMMARY

The purpose of H.R. 4988 is to create the Medicare Benefits Administration (MBA) to allow the prescription drug benefit and Medicare+Choice program to be administered by an independent agency with the appropriate expertise to manage benefits delivered through competing private sector organizations. The MBA will set and enforce new standards for prescription drug plans, disseminate benefit information to beneficiaries, and handle grievances. The new agency will be headed by an Administrator, appointed for a 5-year term by the president, who will negotiate and enforce contracts with prescription drug plan sponsors under part D and Medicare+Choice plans under part C. The Secretary and the Administrator of the Centers for Medicare & Medicaid will establish a transition of responsibility for the administration of part C to the MBA. A Medicare Policy Advisory Board will be established to advise, consult with and make recommendations to the Administrator as well as submit reports to Congress on part C and D issues as they deem appropriate.

H.R. 4988 also creates a pharmacy grant program to be administered by the MBA. The grant program will facilitate the development of services that will reduce adverse drug reactions and med-

ical errors.

#### BACKGROUND AND NEED FOR LEGISLATION

Historically, the Health Care Financing Administration, now the Centers for Medicare and Medicaid, has been a fee-for-service oriented agency with limited experience in managing benefits that rely on private sector competition. Creating the MBA allows for new employees with relevant experience to oversee both Medicare+Choice and the prescription drug benefit. The prescription drug card is also unlike other CMS programs in that it will require a significant degree of coordination with the private sector to implement successfully. Staff will have the technical background and the relevant work experience to develop and promulgate rules, educate beneficiaries about their rights and benefit options under parts C and D, and establish standards to ensure actuarial equivalence among qualified prescription drug plans.

The pharmacy grant program will address the needs of pharmacies, particularly those in rural and under-served areas, in complying with new requirements set forth in the prescription drug benefit for electronic prescribing and developing medication ther-

apy management programs.

It is the intent of the committee that these grants will help enhance patient safety and improve medication compliance for beneficiaries participating in the new Medicare outpatient prescription drug benefit. Studies have shown that up front investment in disease management including medication therapies can reduce overall medical costs for some diseases by as much as 30 to 50 percent. The Committee also notes that a pharmacy or a network of common ownership or common affiliation of pharmacies should meet certain credentialing standards established by the Secretary of the Department of Health and Human Services. The committee intends that the Secretary will work with private entities regarding these standards.

The Administrator of this agency will be appointed for a term of 5 years by the President, with Senate confirmation, and will report directly to the Secretary. The Administrator will have the authority to develop and implement new rules and regulations pertaining to the Administration and delegate responsibilities to officers and employees of the Administration. A Deputy Administrator will also be appointed by the President, with Senate confirmation, for a term of 5 years. The position of Chief Actuary will also be established. The Chief Actuary will be appointed by and report directly to the Administrator. The Secretary will be responsible for coordination between the Administrator for the MBA and the Administrator for the Centers for Medicare & Medicaid Services (CMS) in carrying out the Part C and Part D programs.

This section states that the Administrator will negotiate, enter into, and enforce contracts with PDP sponsors under Part D and Medicare+Choice plans under Part C, including those offering qualified prescription drug coverage. In carrying out duties related to the prescription drug benefit, the Administrator will not be allowed to require a particular formulary or pricing structure for the reimbursement of drugs or interfere with the competitive nature of the PDPs and their sponsors. The Administrator will also carry out demonstration projects under Parts C and D, implement the prescription drug discount card program, and submit annual reports to Congress and the President. With the approval of the Secretary, the MBA will employ officers and employees that are necessary to administer Parts C and D. For functions of CMS that are transferred to MBA, new staff will be employed at numbers not to exceed the number of full time employees that previously handled those functions at CMS. The Secretary and the CMS and MBA Administrator will determine an appropriate transition of responsibility for Part C, which will include the transfer of relevant data and information.

This office will coordinate functions relating to outreach and education of Medicare beneficiaries. It will disseminate benefit information to beneficiaries via the Internet, mail, and phone, and disseminate information on appeals rights to beneficiaries.

This section creates an advisory board to advise, consult with, and make recommendations to the Administrator of the MBA regarding the administration of Parts C and D. The Board will submit to Congress and the Administrator reports on Parts C and D issues they deem appropriate. Each report will include legislative or administrative changes to improve the administration of the benefits under Parts C and D. Topics may include fostering competition, education and enrollment, implementation of risk-adjust-

ment, disease management programs, and rural access. The Board will be independent and will not be required to seek comment or approval of reports from an officer or agency prior to submission to Congress. The Board will consist of 7 members: 3 appointed by the President, 2 appointed by the Speaker of the House with advice from the chairmen and minority ranking members of the Committees on Ways and Means and on Energy and Commerce, and 2 appointed by the President pro tempore of the Senate taking advice from the chairman and ranking minority member of the Senate Finance Committee. The members will be chosen based on their integrity, impartiality, and good judgment and will have education or experience related to health care benefits management. No federal employee will serve on the Board. In general, appointees will serve for a term of 3 years; however, the initial appointees will serve from 1 to 3 years. The Chair of the Board will be elected by the members and will also serve for 3 years. The Board will also have a Director appointed by the Chair. The Board will meet at least three times each year.

The funding necessary to carry out this section will be appropriated in part from the Hospital Insurance Trust Fund and from the Supplementary Medical Insurance Trust Fund.

This section states that the Administrator will serve as a member of the Board of Trustees of the Medicare Trust Funds, and that the Administrator and Deputy will not be appointed until March 1, 2003. Until the appointment of an Administrator, the Secretary will handle the responsibilities of the position.

## DISSENTING VIEWS

H.R. 4988 creates a separate "Medicare Benefits Administration" to oversee the Medicare+Choice program and the new Part D prescription drug benefit. This entirely duplicative entity would administer the pieces of the Medicare program that are run by private, risk-bearing insurance companies and managed care plans. The only conceivable purpose of creating such an Administrator would be to prepare for phase-out of the traditional Medicare feefor-service program, administered by the Center for Medicare and Medicaid Services, and a transfer of the Medicare program to the

private sector.

While the Medicare program has always relied on private sector providers, there is a difference between the current structure and the one envisioned under the Committee bill. Since Medicare was enacted, private sector entities have delivered benefits to seniors and processed the program's claims. The Medicare program itself, however, has always assumed the ultimate responsibility—and the ultimate financial risk—of caring for our Nation's seniors. The private sector entities overseen by the Medicare Benefits Administration would not only deliver and manage the program's benefits and process the program's claims, but would assume financial risk as well.

The Medicare program was originally created because the private sector did not offer affordable and reliable health insurance to the elderly and disabled. We see little evidence that the elderly and disabled have become more attractive populations to insure, and we have serious doubts about the wisdom of the approach established in H.R. 4988. We do not object to private insurance companies or managed care organizations participating in Medicare, but we fear that if these companies assume the financial risk of providing care, the health and well-being of seniors and the disabled will no longer be the first priority of the Medicare program.
